`http://www.afp-direct.com` hosts the Agence France-Presse's online database of news stories and photographs. Agence France-Presse is the world's third largest news agency. The online database, available through subscription, contains over 6.5 million stories and photographs in a full-text searchable database. The web site makes the most of `mod_perl` and its array of modules such as persistent connections to back-end servers and custom authentication.
